

# nuSIM

Integrated SIM for IoT

## NUSIM BASIC INFO SESSION

STEFAN KALINER – MONA PARSA

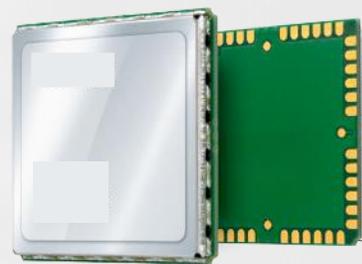

LIFE IS FOR SHARING.

# NUSIM – THE INTEGRATED SIM

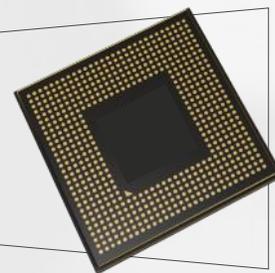

Components for communication to the mobile network\*

IoT Smoke detector

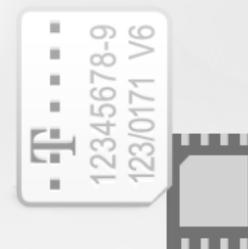

Radio-Module

Cellular Chipset

SIM Holder

SIM Card/Chip

ERLEBEN, WAS VERBINDET.

# NUSIM – BENEFITS

## **COST EFFICIENCY**

- No external SIM element, contacts, circuit paths
- Shorter BoM - Smaller PCB, Housing

## **BATTERY EFFICIENCY**

- System on Chip solution, provides the optimal energy consumption

## **DESIGN ADVANTAGES**

- Optimized internal interface and function
- Smallest HW and SW footprint

## **SIMPLICITY**

- No specific SIM logistics, handling, stock keeping

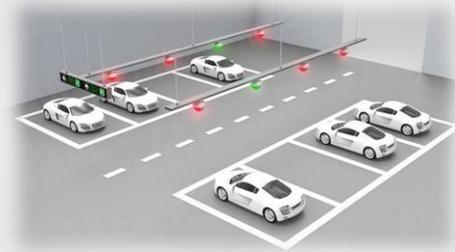

# BEST FITTING FOR ...

USE CASES IN WHICH CUSTOMERS DEAL WITH CHALLENGES SUCH AS

- **SMALL FORM FACTORS**
- **LOW COSTS**
- **LONG BATTERY LIFE**
- **ROBUSTNESS (DUE TO EXTREME ENVIRONMENTAL CONDITIONS)**

ERLEBEN, WAS VERBINDET.

# NUSIM – PARTNER PORTFOLIO

GLOBAL IOT PLAYERS PARTNER WITH DT FOR NUSIM

## Chipset

## Module

## Digital Security / Software Developer

The nuSIM ecosystem is growing. Further IoT players and renowned operators and are interested to participate. Related discussions are ongoing.

ERLEBEN, WAS VERBINDET.

# NUSIM – ROADMAP

FIRST NUSIM CHIPSET AVAILABLE IN Q2/20

First nuSIM chipset available

Today

Q2/2020

H2/2020

nuSIM in chipset/modules partners roadmaps

First engineering sample available

First nuSIM Module available
